

Insulated Flexible Magnetic Pick Up Tool 560mm

A fully insulated magnetic pick-up tool, approved for live working up to 1000V AC / 1500V DC, ideal for hybrid and EV servicing and maintenance, IEC60900 certified. Featuring a magnetic head and a 400mm flexible shaft which can be bent into position allowing it to be used for the retrieval of components and fixings from confined, hard to reach vehicle areas. It's finished in a high visibility orange rubber coating for easier handling.

Additional Information

- Insulated long handled pick up tool for safely picking up parts near high voltage live circuits, with a rubber moulded casing for easier handling.
- Total length: 560mm; Flexible shaft: 400mm long; 9mm diameter.
- Magnetic head: 5.1mm diameter, with 12.1mm diameter rubber shroud.
- Manufactured to IEC60900 standards, for safe operator use on live voltages up to 1000V AC / 1500V DC.
- NOTE: Use with caution. Whilst the operator is fully insulated from the working end of the tool, any metal object being picked up can still short across live circuits.
