

Prop-Shaft Nut Spanner 50mm - for BMW

Designed to attach to a 1/2" drive breaker bar or torque wrench the Laser 8696 50mm open spanner allows the user to undo the locking nut found on many BMW vehicles so the prop-shaft rear joint can be pushed off the differential input spline.

Additional Information

- Applications include: BMW X5 (2006 to 2013), X3 (2010 to 2017), 3 Series (2005 to 2019), 5 Series (2010 to 2017).
- 50mm open ended spanner head with 1/2"D. Use with Part Nos. 8005 & 8469.
- Used to loosen and tighten the rear prop-shaft nut on vehicles listed.
- Use with 1/2"D breaker bar, ratchet or torque wrench as required.
- Equivalent to OEM 33 0 080. Use in accordance with OEM instructions.
