

Bucket with Dirt Trap 15L

A 15L bucket with dirt trap, which allows sediment to settle out and helps prevent dirt remixing in the water. It also features two soft grip handles, an integral pouring spout, and is manufactured from polypropylene plastic for durability. The wide open shape allows a long handle wash brush (such as Part No. 3874) to be soaked easily for cleaning car roofs, 4x4's and vans. Suitable for car cleaning and detailing etc.

Additional Information

- Multi-purpose bucket with removable dirt trap.
- Capacity: 15 litre; approx dimensions: 433x305x215mm high.
- Features a moulded construction with pouring spout & 2 soft grip handles.
