

Extendable Flexi Head Power Bar 3/4"D

A telescopic 3/4"D power bar with a flexible head and socket safety lock, allowing for a greater torque to be applied when loosening stubborn or corroded fixings. The stepless adjustable handle mechanism allows it to extend from 500mm to 800mm, with the safety lock holding the socket in place and preventing it from detaching from the head and causing damage or injury.

Additional Information

- Telescopic power bar with flexible head & socket safety lock.
- Extendable range: 500 – 800mm x 3/4"D.
- Features a stepless extendable handle for greater leverage & easy storage.
- Safety locking feature prevents the socket disengaging causing damage or injury (max permissible torque 1,200Nm).
- Manufactured from chrome vanadium (6140).
