

## HGV Trailer Connector Removal Kit - Knorr-Bremse

A HGV trailer connector removal tool kit designed for the quick release of the electronic connectors on Knorr-Bremse EBS modules without causing any damage. It comprises 3 tools for easing apart 2, 4, 6 and 12 pole electrical connectors on the trailer module, together with a tool for loosening the bayonet nut on the power supply connection.

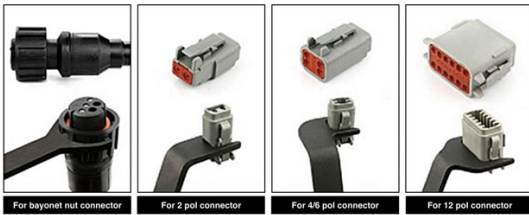

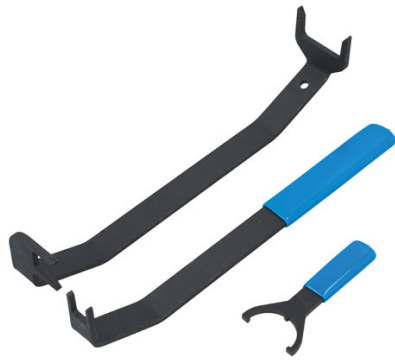

### Additional Information

- Set of 3 tools for the quick release of HGV trailer electronic connectors on the EBS module (power supply & wheel speed sensors etc).
- Designed for working in tight areas.
- Applications include: Bayonet nut on power connector, 2/4/6/12 pole sensor connectors.
- Manufactured from steel (S45C, SS400 & SS41) with a black phosphate finish.
- Vinyl dipped handles for grip & comfort.
