

Intake Manifold Wrench 13mm 3/8"D - for VW Group

An intake manifold wrench, 13mm x 3/8"D, equivalent to VAG OEM T10535, for dismantling and assembling the intake manifold on Volkswagen Group 1.4L 3 cylinder common rail diesel engines. Its crows foot design simplifies access to otherwise hard-to-reach bolts beneath the manifold.

Additional Information

- Applications include: Audi A1 (2015-18), Seat Ibiza (2016-17), Toledo (2013-19), Skoda Fabia & Rapid (2015-21) & VW Polo (2015-18).
- Used to remove & install the intake manifold on Volkswagen Group 1.4L 3 cylinder common rail diesel engines.
- Size: 13mm x 3/8"D. Overall length: 165mm.
- Manufactured from Chrome Molybdenum.
- Equivalent to OEM T10535. NOTE: Use in conjunction with the manufacturers instructions.
