

Auto-Rewind Air Hose Reel 15m

A retractable 15m workshop airline hose, with 3/8" (10mm) internal diameter and fitted with 1/4" BSP couplings, in a wall mounted housing. It features an auto-stop function, allowing for the hose to be extended and stopped at any length, together with an auto-retract function which guides the hose smoothly and neatly back into the housing. The high-visibility hose has a PVC/rubber construction and is silicone free, making it ideal for use in a bodyshop.
