LASER®

VDE Insulated Ratchet 1/2"D

A fully insulated 1/2"D ratchet with a reversible 72 tooth mechanism, VDE and GS certified for safe operator use on live circuits up to 1000v AC and 1500v DC. It features a ratchet direction switch on the base of the handle, together with a ratchet locking mechanism and socket release button, to help keep the users hand away from the working end of the wrench. It also features a curved ergonomic handle, with a thermoplastic rubber non-slip grip. Suitable for use by technicians and mechanics working on hybrid and electric vehicles, together with professional electricians and installers.

Additional Information

- Ergonomic insulated ratchet handle with patented direction switch & quick release.
- 1/2"D x 72 teeth ratchet mechanism. Length: 255mm.
- · Manufactured from chrome vanadium & polypropylene (PP).
- VDE & GS certified. Manufactured to IEC60900 standards, for safe operator use on live voltages up to 1000V AC / 1500V DC.
- Smaller size also available, please see Part No. 8979 (3/8"D).
