

EGT Sensor Thread Chaser M16 x 1.5

A short series M16 x 1.5 thread chaser to restore exhaust sensor port threads including exhaust gas temperature (EGT) sensors prior to fitting the new sensor, ideal for use in tight areas. Manufactured from chrome molybdenum with a Titanium-Nitride coating for hardness, rust resistance and longevity.

Additional Information

- Applications include: DAF EGT sensors.
- For use on any M16 x 1.5 thread. Total length: 43mm.
- Manufactured from TiN (Titanium Nitride) coated chrome molybdenum.
- Use with 13mm sockets or spanners. NOTE: Use with axle grease for clean threads & to catch any removed metal in the flutes.
- Other sizes also available, please see Part Nos. 9003 (M12 x 1.25), 9004 (M14 x 1.5), 9006 (M18 x 1.5), 9007 (M20 x 1.5), 9008 (M22 x 1.5).
