

In-Line Air Hammer Injector Removal Kit

A 20pc diesel injector extractor and air hammer extractor set, using Laser Part No. 8727 and supplied with a variety of injector adaptors & accessories to remove most diesel injectors. The Laser 8727 mounts in-line with the component to be pulled allowing a more effective transmission of impact force and vibration. The reduction in total working length also helps increase the applications when used with the engine in the vehicle.
