

Non-Conductive Insulated Quick Chuck to 3/8" D Adaptor

A non-conductive adaptor that allows a 1/4" drive bit driver or drill driver to be used with 3/8" drive insulated sockets. There is no metal to metal contact between the ends, isolating the driver from the socketry. Manufactured to IEC60900 standards, for safe operator use on live circuits up to 1000v AC and 1500v DC, making it ideal for use by electricians, auto electricians or mechanics working on hybrid and electric vehicles.

Additional Information

- Designed to isolate a bit driver from high-voltage sources.
- Allows use of insulated sockets & bit sockets on cordless drill drivers, cordless screwdrivers & bit drivers.
- Size: 1/4" quick chuck hex shank x 3/8"D. Overall length: 75mm.
- Max Torque: 40NM.
- Manufactured to IEC60900 standards, for safe operator use on live voltages up to 1000V AC / 1500V DC. Material: chrome vanadium (CV6150); Plastic: PA6+30%GF.
