

Strut Retaining Top Nut Wrench - for Mercedes-Benz

The post 2018 Mercedes-Benz Sprinter vans use a large diameter plastic fixing nut to hold the front suspension struts in place. Access to the strut top mounts is limited. The Laser 9169 has been developed to allow easy removal of the mounting fixing without damage.

Additional Information

- Applications include: Front wheel drive Mercedes-Benz Sprinter, including eSprinter, (2018 on).
- Allows access to the top strut fixing for removal of the strut.
- Size: 106mm from flat to point (approx.) x 15 flats.
- Use with 1/2"D socketry.
- NOTE: Tighten fixing to manufacturers specification. Made in Sheffield.
