

Difficult Access Sensor Wrench 1/2"D 19mm

First introduced by Laser Tools in 22mm form as the 8100 DPF Fuel Vaporiser Spanner that was designed specifically to work with the Laser 4590 Hand Impact Wrench. The Laser 9190 Difficult Access Sensor Wrench 19mm is one of four new wrenches that have been added to the range due to customer requests for more sizes to work with 4590 for the removal of difficult to reach exhaust sensors.

Additional Information

- Super slim fit for access; 19mm across the flats, 6-point crows foot style wrench with 1/2"D.
- Applications include single hex 19mm.
- Can be used with 1/2"D socketry & torque wrench applications. For best results use with Laser 1/2"D hand impact wrench (Part No. 4590).
- Manufactured from abrasion resistant carbon mild steel (AR400), with a chemical black & oiled finish.
- Additional sizes available, please see Part No. 9188 (14mm), 9189 (17mm), 8100 (22mm), 9191 (24mm). Made in Sheffield.
