

Pneumatic Needle De-Scaler - Pistol Grip

The new Laser pneumatic de-scaler is compact and lightweight. The tool features a pistol grip, for better control and manoeuvrability in confined areas, together with a rubber handle to help minimise vibration and cold transfer to the user's hands. Suitable for surface cleaning and rust removal from metal surfaces and components.

Additional Information

- Equipped with 11 specially shaped 3mm x 115mm long needles, with a 20mm stroke piston.
- Features a pistol style grip to give improved access where space is tight.
- BPM: 3300. Noise level: 92dB. Air consumption: 1.0CFM (approx.). Working pressure: 90PSI.
- Air inlet: 1/4" BSP. CE compliant.
- Weight: 1.4Kg. Length: 220mm. NOTE: Oil daily. Always wear eye & ear protection.
