

Double Headed Adjustable Wrench - 8 to 32mm

An adjustable wrench with spring-loaded jaw, serrated teeth. Its simple pull back action allows a quick and firm grip on fixings from 8mm to 32mm in diameter. Manufactured from chrome plated Chrome Vanadium steel, they are particularly good on damaged or rounded-off fasteners, pipe fitting, flare nuts and nuts on long threaded bars (cable adjuster for example). Also ideal for plumbing. A must have in any toolbox.

Additional Information

- Self-ratcheting, self-adjusting wrench with serrated teeth for firm grip on even the most rounded fixings.
- Overall length: 265mm. Range: 8 - 32mm across 2 heads.
- For use on all types of bolts, including Single Hex (6pt), Bi-Hex (12pt), Star*/TORX, Spline, Square, metric & imperial equivalents, etc.
