

## Suspension Split Hub Knuckle Spreader Bit Set - Oval

A set of 3 compact hub clamp spreader sockets designed to allow the suspension split hub to be held open to make the removal and fitting of the suspension strut easier. Suitable for use on various BMW, Citroen, Ford, Peugeot and VW Group models. Specially shaped oval bits give a smoother more progressive action.

### Additional Information

- For removal & fitting of suspension struts without removing the hub from the vehicle.
- Simple to use. Slide the oval shaped bit into the hub slot & turn through 90 degrees to open the joint. For use with a 1/2" drive wrench.
- Applications include: Audi, BMW, Citroën, Ford, Peugeot & Volkswagen Group vehicles.
- Manufactured from Chrome Vanadium, with S2 (Silicon Steel) bits.
- Ideal for use with spring compressors & Macpherson strut removal kits, such as Laser Part Nos. 7673 & 7404.
