

Hydraulic Bottle Jack - 20 Tonne Vertical & Horizontal

A compact 20-tonne hydraulic bottle jack that can be used at any angle between vertical and horizontal. This versatility makes it suitable for tasks such as straightening beams, chassis rails, positioning heavy machinery, as well as jacking.

Additional Information

- Applications include: Vehicle jacking (HGV's, large trailers & tractors), industrial applications (machinery positioning & movement), agricultural machinery, frame & chassis straightening up to 20 tonnes.
- Lifting range: 275 to 525mm. Features a threaded top adjuster 75mm & 360° pump head. Weight: 12.8kg.
- Can be used within 90° of vertical.
- Also features a 3-piece handle for increased portability, hard wearing chrome plated piston & welded carry handle.
- Other sizes also available, please see Part No. 9331 (8 tonne) & 9332 (12 tonne). CE & GS approved.
